i Transferu Technologii Sp. z o.o.

ATTRACTIONS OF THE REGION

The Symposium will be in Kielce. According to the earliest historical sources the settlement of Kielce was granted the town rights in 1260. Notwithstanding the Mongol raids, the town obtained self-governing rights under Magdeburg law in 1364. Since then Kielce was recognized as a bishop's town. In the 11th and 12th centuries the vast part of the land south of the Świętokrzyskie Mountains was given to the bishops of Cracow - the richest sovereigns in Poland at the time. In 1493 Cardinal Fryderyk Jagiellończyk granted the town a coat of arms consisting of golden letters C.K. (Civitas Kielcensis – community of Kielce) and a crown on a red background.

In modern times Kielce is the capital of the Świętokrzyskie Province located in the centre of Europe's oldest mountains. The city is the only place on the Old Continent that has as many as five nature reserves within its limits (Ślichowice, Kadzielnia, Biesak, Wietrznia) and one landscape reserve (Karczówka). The biggest attractions of Kielce and its surroundings are:

- *Cracow Bishops' Palace* built in the years 1637-1644 on the initiative of Cracow Bishop Jakub Zadzik. Classified as a top class monument - included in the zero group (in the former classification of monuments). It is recognized as the most valuable of all preserved Polish palaces from the epoch of the Vasa dynasty.
- *Kadzielnia* - strict geological reserve of an area of 0,6 ha established in 1962. It is formed of Devonian limestone stromatoporoids and corals covered with marly limestone;
- *Święty Krzyż (the Holy Cross Sanctuary)* located on Łysa Góra, a symbol of the Świętokrzyskie Mountains. The monastery erected on site of a pagan cult boasts the relics of wood from the Christ's Cross kept in the Oleśnicki family's chapel;
- *Jaskinia Raj (Paradise Cave)* - the most beautiful karstic cave in Poland inscribed on the UNESCO World Heritage List. It is characterized by richness and variety of calcite flowstone formations. It is unique in the world for its dense concentration of stalactites.

SYMPOSIUM TOPICS

ECONOMICS

- Processes of transformation and economic integration in Europe and in the world;
- European Union versus contemporary challenges and economic conditions;
- Experience and effects of Poland's economy transformation;
- Infrastructure versus social and economic development;
- Human and social capital in the processes of economic growth and development;
- Regional and spatial aspects of socio-economic development;
- Financial mechanisms and instruments in the processes of socio-economic growth and development;
- Macro- and microeconomic aspects of evaluation of the processes of economic growth and development;
- Methods and tools of analysis of the processes of socio-economic growth and development.

TECHNOLOGY

- The role of production engineering in the economic development;
- Production organization and management;
- Effectiveness, productivity and organization of enterprises;
- Managing innovations, quality, knowledge, production expertise, production projects;
- Optimisation of supply chains;
- Work environment shaping, work safety;
- Forecasting, decision-making support systems in an enterprise;
- Technologies versus economic development;
- Machines and devices in production processes;
- Mathematical modelling in production engineering;
- Technology versus natural environment.

MANAGEMENT

- Management in the conditions of sustainable development;
- Management in enterprises and in the public sector;
- Management in the conditions of the metropolisation of space and new forms of spatial organization of economic activities – clusters;
- Innovative methods of management;
- Information technologies in management;
- Marketing in management of economic and territorial entities.

SYMPOSIUM LANGUAGE

The official languages of presentations and publications are Polish and English.

ORGANIZING COMMITTEE

dr hab. inż. Artur Bartosik, professor of the Kielce University of Technology, Chairman

doc. Ing. PhD Stanislav Skapa, Brno University of Technology
dr hab. inż. Janusz Tuśnio, Kielce University of Technology

PUBLICATION

Positively reviewed papers will be published in a scientific monograph

REGISTRATION AND THE SYMPOSIUM PARTICIPATION FEE

In order to attend the Symposium, participants are required to register on the website www.symposium.tu.kielce.pl and make the below-mentioned payment before **15.07.2016**:

Type of payment	Payment made by 15.07.2016	Payment made after 15.07.2016
Domestic participants	492 PLN	590 PLN
Foreign participants	110 EUR	135 EUR
Paper publication without participation in the Symposium	200 PLN	240 PLN
Accompanying person	350 PLN	400 PLN
Students (30.09.2016, 1 day)	150 PLN	180 PLN

The Foundation's bank account details: Bank Pekao No. PKOPPLPW, account No:

16 1240 1372 1111 0010 6645 4758

With the note: EMZ, Participant's name and surname

The fee includes

- monograph containing papers accepted for publication
- admission to the Symposium sessions
- lunch, gala dinner, snacks
- participation in the entertaining event

In case the participation in the Symposium is cancelled before 2 September 2016, 80% of the paid fee can be refunded.

ACCOMMODATION

- Participants make hotel reservations and payments on their own.
